Under RKVY RAFTAAR Scheme

Satyukt Analytics Pvt Ltd

Founder: Dr. Sat Kumar Tomer

Focus Area: Precision Agriculture including applications of Sensors, WSN, ICT, AI, IoT & Drones

Website: <https://satyukt.com/>

Email: sat@satyukt.com

Mobile: +91 – 9986568525

Foundation Year: 2018

Location: Bengaluru

Production risk and challenges for farmers and the lack of regional crop analytics for agribusinesses persists as a major problem in India.

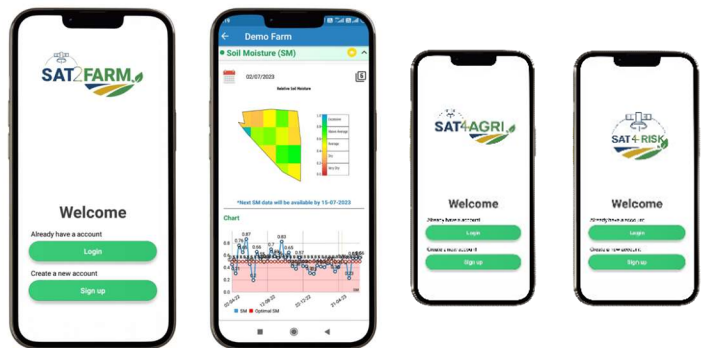

Startup's SaaS based products leverage innovative technologies like remote sensing, big data analytics, artificial intelligence, and machine learning, to offer end-to-end near real-time analytics along with historical data and insights for better decision-making.

Provider of data and analytics solutions for earth observations. It is an agritech company that uses satellite remote sensing technology to provide satellite-based climate data and decision analytics.

It uses machine learning algorithms to generate near real-time insight for multiple domains like agriculture, water resources management, healthcare, and insurance analytics for crops, earthquakes, floods, wind, and motor. It also provides training services for research scholars, students, government, and private employees.

Satyukt has 4 major product services to offer:

- Sat2Farm
- Sat4Agri
- Sat4Risk
- MRV Carbon Credit
