**About the Company:Aditya Bioinnovation Pvt Ltd: Revolutionizing Agriculture with Natural Formulations**

Aditya Bioinnovation Pvt Ltd, has become a game-changer in the agricultural sector. The startup specializes in bio-agents, bio-fertilizers, and nano-fertilizers, offering a range of natural products designed to enhance crop health and protection.

Their proprietary 100% natural formulations, derived from botanical extracts and homeopathic principles, are highly effective against pests, fungi, viruses, and insects. These revolutionary products require just a few drops to safeguard crops. Aditya Bioinnovation has earned international patents for two of their offerings and currently has nine products in the market.
