About the Company:"Frugal Innovation Paves the Way: JH Incubators & Mushrooms' Remarkable Journey"

JH Incubators & Mushrooms, founded by Manmohan Yadav, is a shining example of frugal innovation in the agricultural industry. Specializing in addressing challenges related to egg incubators and mushroom production, the company primarily caters to small-scale farmers.

What distinguishes JH Incubators & Mushrooms is their unwavering commitment to affordability and groundbreaking innovation. They have successfully developed frugal incubators that are not only fully automatic but also highly portable. This ingenious solution has empowered small farmers to enter the industry with minimal investment.

JH Incubators & Mushrooms' vision and mission centre around making the best and most cost-effective incubators accessible to those who need them the most, all while delivering exceptional service. This success story exemplifies how frugal innovation, hard work, and a dedication to serving the needs of small farmers can lead to substantial growth and positive impact in the agricultural sector.
