About the Company:Boaz Agri Analytics Pvt Ltd: Transforming Agriculture with Data-Driven Innovation

Boaz Agri Analytics Pvt Ltd has brought a remarkable transformation to the agriculture industry. Traditional farming has long suffered from issues such as lack of transparency and access to timely information, leading to yield gaps. Boaz Agri Analytics introduced a 360-degree smart self-delivering integrated platform that empowers agribusiness stakeholders with data-driven insights to enhance productivity and profitability across the value chain.

What sets them apart is their data analytics-based recommendations for farming communities, locational intelligence through GIS and spatial technology, and trust mechanisms in the food supply chain using blockchain technology. Boaz Agri Analytics has grown to encompass 250 operating centres, 500 registered farmers, 300+ self-help groups identified, and more than 80 suppliers onboarded, fostering trust and improving efficiency in the agribusiness sector.
